

STUDENT CLUBS AND COMMITTEES AT VOU

VOU not only pays attention towards Academics, but takes equal interest in bringing out the extra outgoing talent in students by establishing committees and clubs. Students take keen interest in joining the club or committee of their choice. Clubs and committees provide enormous opportunities to students and help them to enlarge their circle of contacts on daily basis. They will get to know the people from other sectors, specializations and of different interests.

Being the members of Clubs and Committees, students get to develop their personality, communication skills, thought process upgradation, generation of ideas, staying organized and multitasking. The best part of these clubs and committees are that, the hidden talents come out and they get to know about those unknown areas when they socialise with people. All these skills when learnt are going to go a long way with them in shaping their professional and personal lives.

Clubs and committees are the learning grounds for them. They empower them to be the best team leaders and great decision makers.

Students at VOU can be the member of any one club or committee listed below.

CLUB AND COMMITTEE MEMBERSHIP FORM
